APPENDICE D – Coefficiente di riparto e componenti del costo standard

Per i 6.647 comuni delle Regioni a statuto ordinario attivi al 31 dicembre 2016, in relazione al servizio rifiuti, nelle pagine che seguono sono riportati: i coefficienti di riparto dei fabbisogni standard, le tonnellate di rifiuti urbani, il costo standard totale, il costo standard per tonnellata e le sue componenti calcolate con riferimento ai dati del 2016.

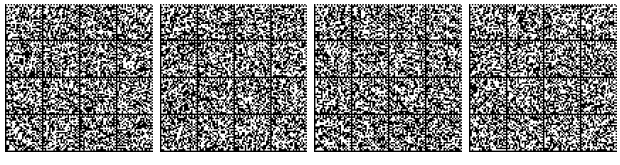

Tabella D.1 – Coefficienti di riparto e componenti del costo standard misurate in relazione ai dati del 2016
